Tōma...
Lily! Lily! Hang in there!

however, mine can no longer...
I heard his voice,

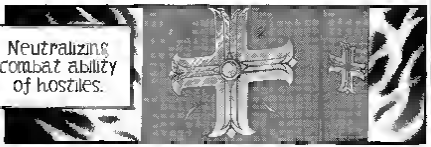
Are you there?
Lily,
Isis.
Tōma is surely crying...

You're Touma, right?
I'm here to save you.
My vision is strange
and I can't see well anymore.
I can no longer hear Lily either...
Pattern - Yellow
High level of danger
State of alert.
Pattern - Blue
No danger.
No hostility.

I'll take you somewhere safe—
Let me hear your voice.
he is just like a walking corpse.
I can't detect any magic or read his train of though. Right now,
He seems strange, but it feels different from last night.

Wait, Touma. Lily's getting intimidated,
so put away that weap-

Alertness level has risen. Confirming switch to combat ready mode.



Neutralizing combat ability of hostiles.

...ooh!!
!?
Aw!
Isis!!
Eh...?

I remember.
That's right.
It's almost as if it's out of the question.
Strosek 4th and 996.
It's a simple thing to engage them, but it's as if we cannot create a suitor

I wonder if it's a problem with the excitation rate and the speed of tissue erosion.
In the 70 participants so far, only three survived until the Divider was activated.
All three died instantly from self-induced EC effects.
Anyway, we require more data.
I guess so. Let's send a few more subjects in today.
Within the underground room,
I was used as a source of infection for the EC virus.

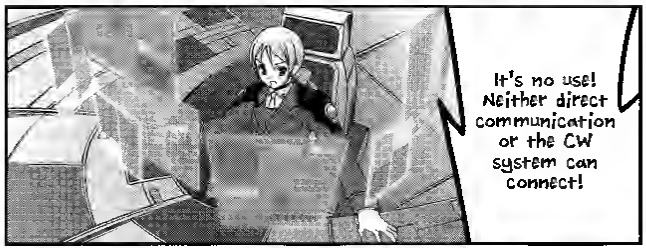
Please stop it! Help...!
Uwah, Uw- aaah!
Con- tact- ing.
Subject #73: 24 and healthy.
Magic Rank: B.
Eeeek! Please! No! Save...
Engage
Uw- aaa- aah!

Eeeek!
Ga-aa-aah!
Argh!
.....
All the Fault lies with you
If you don't want to kill, just quickly make us a suitor.
Please... Stop it...
Everyone is just... dying...
Did the Strosek say anything?
Picking up the sound.

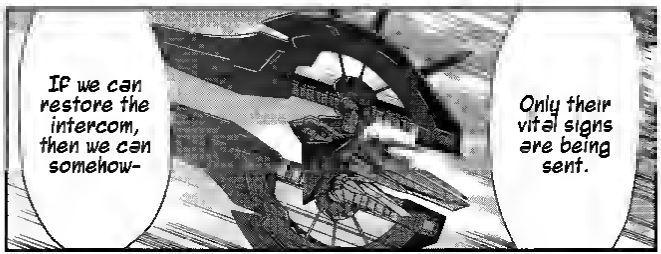
If you do it well, no one will have to be killed.
If you don't want the person in front you to become lumps of meat,
then just complete your Driver.
Every person I have touched has died.
No matter how many I killed, more people were sent to me.
Those people all died as well.

I saw nothing but the scenery of blue skies and pretty flowers
flowing from the people I touched.
I slowly lost the feelings of both hardship and sadness.
I lost track of the number of bodies, but
Even so, they continued the search for a suitor.
My memory also began to deteriorate — to "break", as they called it.
When did I become unable to project my voice?
when Touma heard my calls..
Until that day,

Still no news of the assault team?



It's no use! Neither direct communication or the CW system can connect!



If we can restore the intercom, then we can somehow-
Only their vital signs are being sent.

Everything_ Everything is my fault_

It's all my fault.
I'm sorry
I'm so sorry, Touma

Fortis.
Fortis, are you still alive? Can you hear me?
I'm alive, for better or worse. I can hear you.
Jeez, you sure did something horrible.
The skipper and us were both about to die, man.
Have you realized that you are a Zero Driver yet?
Otherwise, how could have you fired the Eclipse Zero so suddenly
I do not know.
It just happened right after I wanted the fighting to stop and disappear.

Well, it's a rare sight, but
I guess there are kids that "somehow" surprise you with something major.
There are people from the TSAB in here, right?
I want them to help these two.
I want the people from the TSAB to care for the two of them.
You expect us to just let the people trespassing into our home go like that?

If it's just those two, then we'll assist them without being threatened like that.
If you don't help me out here, then I'll do it again...
I'll fire the "Zero".
Besides, if you fire the Zero again, those kids will die, you know?
However, helping the TSAB members out is going one step too far We aren't that kind.
is that I don't let them die I don't want to see any more lives extinguished.
I may just shoot again. All that matters

As the one responsible for this ship's sailing, I wish to avoid unnecessary dangers.
Fortis, shh
You can't just give your name out!
This is Stella Irvine, the skipper of the Huckebein.
Touma
How about we transfer the invaded TSAB members and those two to the ship outside?
If you're fine with us ejecting them out of the gate to be picked up, I can do that right away.
Since they're a Special Ops fleet, they should be able to catch them easily if they are contacted
That will be fine
Thanks, Stella.

This is the skipper and administrator of the S-Quad Huckebein
An announcement to the TSAB Special Ops fleet.
We will leave the bugs that have invaded along with two civilians in your hands.
A kid's voice?
Be at ease, for we plan to return them safely.
In a few minutes, our wings shall regain power.
During that time, they will be our hostages. Refrain from attacking.

Well, we know we've been singled out!
Also! I don't know if you're Special Ops or not, but stop sticking your nose into our business!
At least we haven't caused any major events within Administrated Worlds these recent years!
so shouldn't you be doing more important things than wasting your time hunting us down?
We've been doing them outside Administrated Worlds,

If you continue to pursue us, the Huckebein will get really angry!
Rather than attacking us and causing carnage on the way, wouldn't it be better to focus on eliminating safer crime?
Well, of course we've committed some minor offences within the Administrated Worlds.
Stella! Stop there! You're leaking too much information!
Jeez, when Reacted she's really--
You know you're going to have a mountain of causalities there, right?
You want us to destroy an important base or two?
The weight of human assets, including lives, transcend areas of administration.
If we let you escape, someone else will be killed somewhere.
Special Duty Section 6 Captain, Lt. Colonel Yagami.
We cannot allow criminals breaching TSAB law to remain at large.
Do your best to stop them from plummeting! Okay!?
Whatever! I'm going to eject the TSAB members and the civilians after five minutes!
I'm not talking to someone who can't do arithmetic!

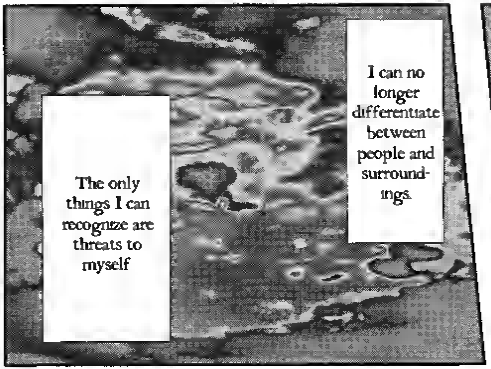
Resume attack on the Huckebein after securing the assault team and civilians.
I'll catch them. Lucino, open the hatch
But, the main cannon, Captain Takamachi and...
R-Roger
Whatever it'll take. we'll net them here
Aggressor 1 reporting. Restarting AEC00.
The two of us can move out in another five!
Currently in hanger, exchanging batteries for AEC03.
This is Aggressor 2.
All prepared for another sortie?
Roger, Aggressor 1, Captain Takamachi.

Aggressor 1, along with Raising Heart, all ready to go!
Yes.
AECOO "Fortress".
Drive Ignition!
Su-chan, right?
Please, take care of these two...
Touma...!
What happened? And these kids...
They're ones I met during my journey.
They got involved in this because of me.
They're both good girls. Treat them kindly.

I'm sorry for dragging you into this mess.
Everyone in Hückebein,
thank you and Fortis for telling me so much.
De-Ville,
thank you for helping us out.
Cypha,
I'm sorry for assaulting you over a misunderstanding.
Finally, Veyron,
However, I apologize.
I'll go on by myself.
Thank you for inviting me into your family.

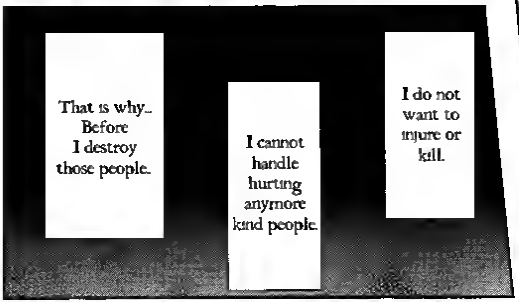
Where are you going by yourself...!
Touma!
Su-chan,
I was really, really happy. You've treated me so kindly since that day,
and even offered to take me in as part of your family. Thank you.
I'm sorry.
Bye-bye, Su-chan.

ドゴォ
An explosion has occurred on the surface of the Hückebein.
Someone is leaving the Hückebein!
Visuals received!
This is... a human!?
Touma... Touma!
ゴォォ
Touma!!



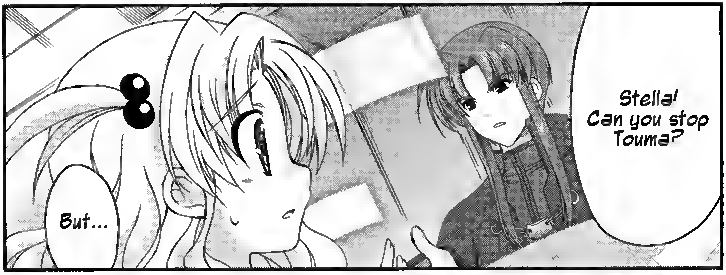
The only things I can recognize are threats to myself
I can no longer differentiate between people and surroundings.

A person infected with EC cannot survive without killing others.
I will cause them to suffer if they express even a little hostility towards me.

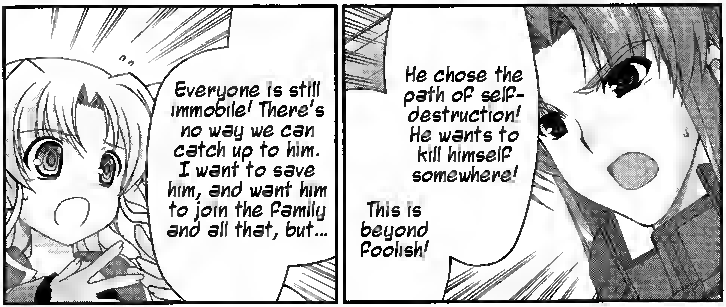


That is why.. Before I destroy those people.
I cannot handle hurting anymore kind people.
I do not want to injure or kill.

I shall end it myself.
While I can still recall the pleasant memories of the peaceful times spent together with them..

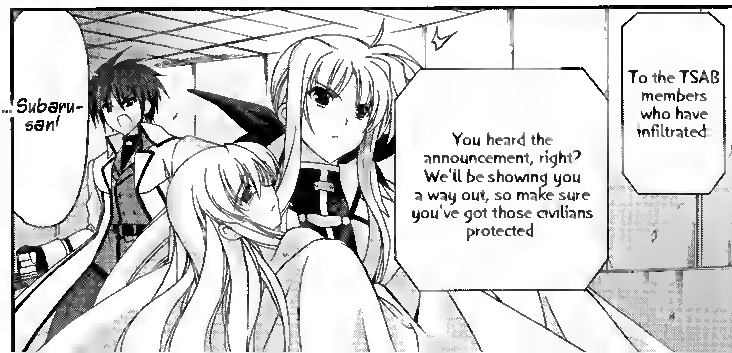


Stella! Can you stop Touma?
But...



Everyone is still immobile! There's no way we can catch up to him. I want to save him, and want him to join the Family and all that, but...
He chose the path of self-destruction! He wants to kill himself somewhere!
This is beyond foolish!

Ejecting them with utmost priority!
It'll be bad if we let them loose in here...
More importantly, the TSAB members have begun to recover



...Subaru-san!
You heard the announcement, right? We'll be showing you a way out, so make sure you've got those civilians protected
To the TSAB members who have infiltrated

Here we go. Make sure to catch them.
Ejection!
Three members of the assault team and two civilians have been ejected!
Roger. They are within sight.

Squad captain! Where should we fly to?
Aggressor 1, ready to sortie.
No problems with magic activation.
Continue tracking the Hückebein with the Wolfram. Our main cannon shall be the cannon equipped Aggressor 2.
Captain Takamachi, "track and secure the separated boy"!
Catching them with the holding net.
Roger.
Takamachi Nanoha, launching with Fortress!

Stella. What about Touma?
It seems like we can teleport soon.
It'll be a pain if that ship catches up on us, so we're winging it.
Hückebein I, the gunner is on her way to save Touma.
Don't worry. I just got in touch.
I'm bad with heeeeights!
Woaaah! That god-damn boy!

No
After your medical checks
We are able to sortie straight away. Please, your orders!
Riot reporting. All members have returned safely.
You're... Su-chan, right?
Ah, yeah, I'm Subaru Nakajima-
Touma's definitly waiting for your help!!
If you aren't going to help him,
then I will!

Su-chan's a member of the rescue team?
Ehh?
Yeah, she's from the Harbour Disaster Prevention and Rescue Team.
I know them! The ones that wear those silver uniforms!?
Are they amazing?
They are! They're the Front-line elites within the anti-disaster teams!

Then... If I'm caught in a fire or some other disaster, I'll be the first one they'll save, right?
Sorry, it's the opposite.
Even if it's only a single person in an extreme situation, such as in the midst of flames or at the bottom of the sea, they'll want to save them.
They try their best to save just one more life and prevent an extra death.
That's why they'll never do something like saving those closest to them first.
I see~

Did you hear that from Su-chan?
That's right.
But today
You seem pretty happy when you talk about her
Eh?
I-Is that so?
Ahh.. I wouldn't be able to do it. I'd definitely save someone close to me first.
Well, isn't that a good thing for normal people?
However, it's dangerous for a novice to dive in and save complete strangers, so you shouldn't.
Fufufu.
You shouldn't.
Actually, I may look like this, but I am by no means a novice.

Don't be surprised I have the qualifications and skills!
For example?
I have a level two certificate in dressmaking, right? And a commercial nail artist license, right?
I can also make accessories—
Nooo. Surprisingly, those won't help you at a scene of disaster.
You're not gonna have a problem with employment though.
Well... I'll treat it as a compliment to a meal or something.
She really has no worries at all, huh.
If the two of you end up in a tight spot,
I'll certainly be there for you first!
Sure.
First of all, we'd have to be in the position of needing a dressmaker or nail artist to bail us out
Aha-ha-hah~

Touma has always wanted to see you.
Su-chan and my other sisters are absolutely reliable.
We'll definitely be all right if we can get in contact with them.
Yeah...

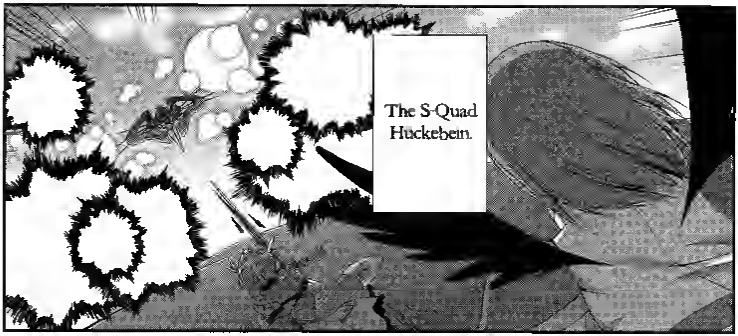
Thank you very much for saving us when we were ejected from that other ship.
However, I still think that
you wanted to save Touma more than us!
Ignoring your most cherished person in a hard time like this
must be extremely painful...

I can understand your childish reasoning.
Hey, you...
I'm sure Su-chan didn't make any mistakes.
But the people I want to save and protect most of all
are those who see me as a friend!

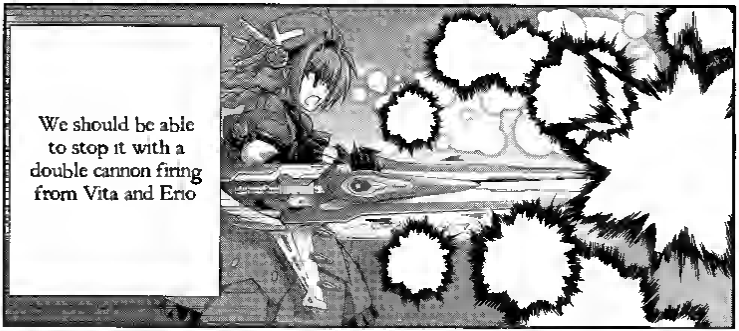
I want to help Touma when he's crying!
I don't want to waste even a second.
タタッ!
That's why...
I'll go
to save my friend!

That's too dangerous.
I'll go and bring her ba—
Ahh, if so, then I'll...
Sorry, Riot Team, but this is an emergency!
I have just confirmed another possible member of the Hückebein heading towards Touma.
He's advancing at a high airspeed.
At this rate, he might run into Nanoha's team...!

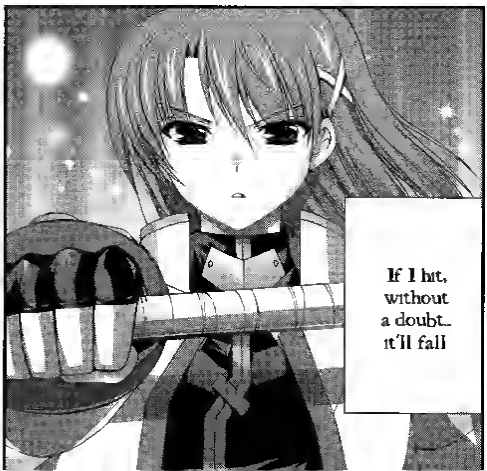
I want it done before we land.
Save the person in need and arrest the members of the Hückebein.
Erio, you'll back us up with the main cannon. Take the cannon equipment to the deck.
Roger!
Subaru and Enforcer Fate, finish a quick check and support Instructor Takamachi!
Should we do an emergency rescue of that girl flying out after Touma?
Yes. Secure her and escort her to somewhere safe.



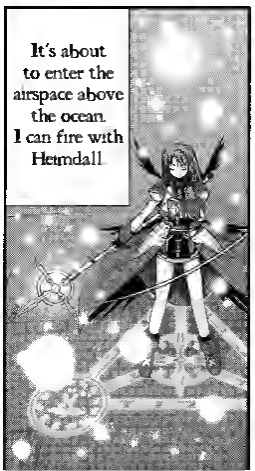
The S-Quad
Hückebein



We should be able to stop it with a double cannon firing from Vita and Erio



If I hit, without a doubt.. it'll fall



It's about to enter the airspace above the ocean. I can fire with Heimdall

We shall definitely capture those Huckebein right here.
Let's go, Vita!
Gotcha!

Aru! You'll secure him and bring him back safely, right?
Be careful not to fire too much!
I'm on it! I'm still not so confident, but I'll make do somehow! G'dammit!
Ville is also getting to him He's behind you.
Please co-operate with him if required.
Puffy! Are you awake?
That boy's a real trouble-maker. Jeez!

キャラクターデザインは都築先生の原案を下敷きにしているので、いつもほぼ一発OKなのですが、ドゥビルは顔のデザインで何回かやりとりをしたので、Forceでは珍しく、いくつかのバージョンが出ました。

魔力非総合状況化での飛行制御・火器制御を行なうメインユニットと、3機の「多目的機」で構成される武装で、それぞれの機は「砲戦用の大型粒子砲」「中距離戦用プラズマ砲」「近接近用実体剣」を内臓している。
いずれの機も独立飛行が可能で、機部に搭載して使用することもできる。

パフュームグラブ

アイシス自作の「コンバットギア」。手機の先に装機されたバルーンから、粉塵や気化機を放出するための機機。
バルーン内には機機の「ボトル」をセットすることが可能で、機機の機料をバルーン内機で総合して、任機の効機を機生させることができる。

短距離瞬間移動

「瞬間移動」に該当する魔機技法自体はさほど珍しくない。
ただし、それらの式式の「移動開始／出現」には、通常「フェイズタイム」と呼ばれる、他の行動を取ることのできない時間が存在する。
「短距離機間移動者」は、型機や機式瞬間によってフェイズタイムを「瞬間に使えるレベル」にまで短縮した者を機す。

特務六課部隊長・八神はやて二佐

時空間の魔導師士であり、最大な魔力とベルカ・ミッドハイブリットの魔導を使いこなす、通称「歩くロストロギア」。
異特すぎる魔法瞬間システムの機機でAEC機機との個性が薄く、現機点では専用機機が機瞬されていないが、鬼集行能型ストレージ「夜天の機」には、「機機殺し」への対機が瞬瞬されているとのこと。
